

TVR®504

# JD Collection

**TRUE VINTAGE REVIVAL**

HANDMADE IN JAPAN

# TVR®504 JD Collection

Made famous by the legendary James Dean and then Johnny Depp in the recent decade, this model is one of the most iconic vintage designs ever created. Based on the legendary JD shape frame, the model is meticulously recreated by hand by our expert craftsmen in Sabae, Japan; including 50s retro anti-slip strips, 7-barrel hinges, keyhole bridge, signature spear rivets and miter cutting by hand. Miter cut is a critical technique vintage eyewear where the frontal frame and legs each lie at a 45-degree angle, creating a 90-degree angle. True Vintage Revival remakes all the original elements of the TVR®504 using the exceptionally rare, authentic mould that produced this classic shape that has been worn by many illustrious icons of the century.

Stylise the TVR®504 with lightweight clip-on polarised sunglasses that come with vintage filigree design; very popular in the 50s.

TVR®504 CLIP-ON (USD120)

GENUINE COW LEATHER CASE

*True Vintage Revival (TVR®) designs are available through our website and selected luxury eyewear stores worldwide.*

## Master Craftsman SAWADA-YAEMON

Coming from a family of master craftsmen whose heritage dates back to the Edo period, Sawada-Yaemon holds strongly to his multi-generational reputation in eyewear production. The Yaemon family is the first to perfect the iconic ARNEL shape using traditional measurement techniques.
